SUMMARY

Full Stack Software Developer with expertise in Front-end and Back-end Development. My passion lies in building efficient, scalable, and user-friendly applications. I thrive in Collaborative environment and am always eager to learn new skills and technologies to improve my craft.

TECHNICAL SKILLS

- **Frontend** - JavaScript, React js, Redux, Next js 13, TypeScript
- **Backend** - Node js, Express js, TypeScript
- **Version Control** - Git and GitHub
- **Database** - MySQL, Mongo DB, PostgreSQL

ACADEMIC PROJECTS

❖ Personal Portfolio

Build a personal portfolio project which is a showcase of my professional and academic accomplishments. It includes a collection of my best work, such as coding projects and design samples. –**Html, Javascript, Tailwind Css, React js**

❖ Movie Memory | Api based application

Create a video streaming application similar to Netflix, incorporating features like user authentication, content recommendation algorithms, and an intuitive user interface. Also Optimized streaming for enhanced user experience.

– **Html, Css, Plain Javascript, Web API**

❖ Tetris Game | Basic javascript game

This is a simple grid-based game in which user have to navigate 5 shapes down to the bottom of the bridge. The aim of the game is to get the Highest score by filling up rows on the grid in order for them to disappear for user to gain points. –**javascript ,html, css**
